

Barbara Scroggins became aware of what 7 Star does and donated a beloved family horse for equine therapy. She's been a Board Member since 2015 and is on Finance Committee. Barbara has a wide range of legal, business and personal undertakings. Administering guardianships and some friends inspired her to open, own and operate two loving Residential Care Homes for special needs persons to live in VS an institution. She and her team provided home cooked meals, 24/7 personal care, daily life task aid, training, social interface and medical care/therapy arrangements per physician orders. Her professional career also includes extensive facility operations management, analysis, budgeting and accounting for various business and real estate patrons. Barbara is in awe of 7 Star's Smiling Clients with improved physical/mental skills that enrich their quality of life! They inspire her to strive for improved services, accountability and opportunities to allow more mentally and/or physically challenged individuals and veterans to receive equine therapy.
